Queens, New York City

Data analyst with a foundation in science, tech, and education seeking opportunities in junior roles. With a degree in astrophysics and certificates in data science and full-stack web development, I bring a unique blend of experiences and technical skills to the table.

Work Experience

Mathematics Tutor

Sep 2024 - Oct 2025

Elite Education | Hong Kong

- Subjects taught include: algebra, calculus, physics, and standardized essay writing
- Provided feedback and documented lessons after every session
- Collaborated with counseling team to prepare material and tailor lesson/course plans

Data Analyst and Developer Volunteer

Oct 2019 - Feb 2020

Hack for LA | Los Angeles, CA

- Used python/pandas for ETL operations + data analysis, cleanup, and visualization on data from 311 calls
- Contributed to various points of the pipeline, including the back-end with Sanic and front-end with React
- Worked on containerization with Docker

Research Intern

May 2016 - Aug 2016

SETI Institute | Berkeley, CA

- Focused on signal processing and detecting radio frequency interference (RFI)
- Used hardware to identify nearby radio signals, and a telescope to collect data from space
- Applied math, physics, and python to programmatically process data and visualize the information
- Documented work in jupyter notebooks as reference material for future interns/students

Core Skills

Tech: Python, pandas, HTML/CSS, javascript, React.js, node.js, Docker, R, mongoDB, SQL, Azure, AWS, Tableau, PowerBI, Excel, LaTeX

Core Skills: Data analysis, data engineering, & data visualization, scientific computing, ETL operations, web scraping, statistical & regression analysis, calculus & advanced math, instructional communication, academic writing, documentative & highly organized, goal-oriented

Education

Data Science, Certificate

Aug 2018 - Oct 2019

MIT Extension Online

Relevant Coursework: Statistics, Probability, Data Analysis for Social Science (R), Machine Learning with Python

Full-Stack Web Development, Certificate

Aug 2018 - Feb 2019

UCLA Extension Los Angeles, CA

Astrophysics, B.A.

May 2011 - May 2016

University of California, Berkeley Berkeley, CA

Additional

- Work Authorization: Full - U.S. Citizen
- Languages: English (native), Mandarin (limited working proficiency)
